

Fog Coat

 **LaHabra**<sup>®</sup>

 **LaHabra**<sup>®</sup>

## Benefits of Fog Coat

- Economical way to revive aging stucco
- A fast way to “even-out” color variations
- Easy to apply
- Won’t peel or chip – recommended in place of paint
- Allows texture to remain the same
- Allows future stucco applications
- Long life – low maintenance
- Water vapor permeable – allows stucco to breathe
- Available in 30 Standard colors and 12 Lifestyles colors

Fog coat definition by the Stucco Manufacturer’s Association (SMA): “Fog coat is a cementitious product formulated for use as a spray-applied cement paint to color stucco. The product may be used to even the color of new work or refresh existing stucco.”

LaHabra Fog Coat is a spray-applied portland cement coating which cures to become part of the stucco surface to which it is applied. Fog Coat is manufactured to exacting LaHabra standards that are the industry benchmarks of quality, consistency and reliability – the same ones expected from all LaHabra products.

Fog Coat will revive the existing color and natural beauty of stucco. Fog Coat can also be used to eliminate color differences caused by job site conditions like changes in weather or repairs.

Fog Coat is as easy as

# 123

# 1

Mix

# 2

Strain

# 3

Apply

Different products for different textures.  
Fog Coat DX for float finishes  
Fog Coat DXT for machine finishes
