

LaHabra® Platinum Plus

POLYMER MODIFIED STUCCO FINISH

Envision...
Any Shape. Any Color. Any Texture.

PAREXUSA

The Bullets

- Polymer Modified Cementitious Finish
- Tinted with color bottles
- Exterior color coat over EIFS and Stucco

- Strength of a traditional cementitious finish
- Improved color consistency over traditional cementitious finish

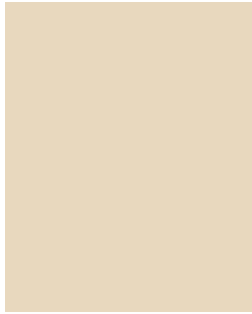

- For new or existing construction
- Great for the renovation market:
 - Refresh and strengthen your exterior wall without having to lath it up again
 - Used in combination with Parex USA PrimeShield to go over painted surfaces

NOTE: The color on the chart are intended to show the approximate color of Platinum Plus stucco finish. Color will vary depending on type of finish selected. Application by machine spray or texturing will increase the depth of color. Variation in color due to weather, job conditions and method of application should be expected. For color verification, request an actual sample in the color and texture prior to ordering material. Apply a sample of stucco to be used on actual substrate before proceeding with the application. LaHabra is not responsible for color correctness of applied finish. Color must be verified and approved by owner prior to application.
